CNC Training Projects

The partner for educational institutions.
Future-oriented CNC Training at top industry standards is an essential factor for the economic development of a country. Therefore the DMG MORI Academy supports educational institutions with innovative concepts, products and services: from the machine tool through software solutions, to teaching aids. With our know-how from equipping more than 1,000 schools in Germany, you allow your scholars and students to enjoy training according to German standards.

DMG MORI SEIKI Academy

CNC Training according to German standards.

Your benefits

+ Training concepts according to German standards by a worldwide leading manufacturer of cutting machine tools
+ Comprehensive training of teachers with intensive “train-the-trainer” modules
+ Holistic consultation as well as competent planning and implementation of your training centre
+ Training documentation and basic curricular adapted to your requirements – proven 1,000-fold in practice in Germany
We will support you with successful CNC Training at the highest level – from a status quo analysis through "train-the-trainer" seminars to the start of training in your training centre.

Our success model

Your top know-how in CNC Training.

We will support you with successful CNC Training at the highest level – from a status quo analysis through "train-the-trainer" seminars to the start of training in your training centre.

STATUS QUO ANALYSIS
+ Evaluation of teacher qualifications in workshops
+ Documentation in the form of skills matrices

TRAIN THE TRAINER
+ Intensive training of teachers regarding all relevant DMG MORI machines and control systems
+ Joint development of curricular and training documentation

START OF THE TRAINING
+ Start of training in your training centre
+ Supported by trainers of the DMG MORI Academy during the first training
+ Training on the job

HIGH-LEVEL CNC-EDUCATION – SUCCESS IN THREE STEPS
Modular complete equipment

Your advantage as CNC trainer.

The individual complete solutions of the DMG MORI Academy allow you present modern and practice-related training according to German standards. Upon request we will support you with individual offers for machine tools, software, "train-the-trainer" seminars or with training concepts. You can always offer your scholars and students future-oriented CNC Training with these solutions – proven 1,000-fold in practice in Germany.

Machine tools for training:

Comprehensive offer of CNC turning and milling machines of the leading manufacturer. Secure quality, long service life, highest functionality and secure investments with high-tech components.
